

AFTER-SCHOOL SCIENCE CLUB

- Series of weekly classroom-based “workshops” for KS-2 Year 6
- Lots of interaction and simple, safe experiments for the children (no chemicals, no mains electricity, no flames etc.)
- Physics / maths-based, generally follows National Curriculum
- One hour maximum, from September to the following March
- Real, everyday science made fun
- Children signed-up are expected to reliably attend: the topics are carefully sequenced with some revision along the way
- Presented by Chartered Engineer
- Free

WEEK	TOPIC
1	Sounds good to me
2	Back to the future
3	Stuff matters
4	Whatever next!
5	Staying alive
6	Feeling the pressure
7	Gravity and Mr Newton
